Mathematics Concentration:

The Mathematics Concentration will be useful for students with an interest in Mathematics and Science and will help build a strong background for teaching Mathematics.

Students should meet with a faculty advisor from Mathematics to design their Mathematics Concentration. With the right expert advice from a mathematics faculty advisor, it may be possible to complete enough courses to qualify for a Foundational Mathematics Minor to teach middle school mathematics.

Students must take a minimum of nine units; at least three of the nine units must be upper division.

Required Course:	Units	Institution	Grade	Term	Comments/ Substitute course
MATH 331 History of Mathematics	3				GE: B3, D, UDIGE
Select two from the following:					
MATH 150 Calculus 1	4				
MATH 201 Elementary Statistics	3				
MATH 230 Logic	3
